

Observed Challenges Checklist for Parents

Child's Name _____	DOB _____
Parent's Name _____	Phone Number _____
Teacher's Name _____	Date _____

The beginning of each school year can pose new challenges for parents, children and teachers alike. As we navigate through this new norm of learning, you may notice your child having difficulties adjusting to this novel format. By completing the checklist below, we can begin to identify underlying areas that may be impacting your child's ability to reach their full potential.

- Rushes through work
- Poor posture (slouches/w sits/ props)
- Poor coordination
- Falls/trips frequently/loses balance
- Aggressive
- Distractible/quickly loses focus
- Frequently bumps into others or objects
- Watches peers before trying to participate
- Impulsive
- Difficulty navigating classroom changes or transitions
- Decreased participation in movement tasks

- Seeks or avoids Auditory sounds (covers ears, makes sounds)
- Seeks or avoids Movement (fidgety, always moving, hesitates with movement)
- Seeks or avoids Smell (seeks out smelling objects, sensitive to smells)
- Seeks or avoids Touch (bumps into others, dislikes touch, poor personal space)
- Seeks or avoids Sights (stares at objects, covers eyes, head down, rubs eyes)
- Frequently chews on clothing or objects
- Poor separation from caregiver

- Difficulty speaking up for self
- Difficult to understand
- Controlling
- Difficulty with reading
- Difficulty with word finding
- Off-topic comments/responses
- Difficulty with conversation exchanges
- Unexpected emotional responses
- Additional response time required
- Difficulty completing tasks
- Difficulty with puzzles
- Difficulty organizing materials
- Difficulty holding a pencil
- Difficulty with writing
